Montag, 6. Februar 2023 MS-Access Web App and Office 365 Integration

Did you know that you can integrate your converted MS-Access Web App into the Microsoft Office 365 Suite?

As a part to streamline and handle document management efficiently, many of our customers asked us to implement the from us migrated MS-Access Application Web App into the Office 365 Environment.
This gives you the advantage that you can Edit and create Word / Excel and PowerPoint documents directly in your Web browser as an integrated part of the online application and keeping track of format and documents.
